COMPREHENSIVE PLAN - The plan was passed by the borough and township. They can now put ordinances in place consistent with the plan. Andrew Yetter wanted to know how the plan related to the burying of utility lines underground. It does cover that subject, but he will need to approach the borough at the next meeting to discuss whether or not they think it would be possible to complete that type of project and whether they would encourage Andrew to pursue contacting West Penn Power, Verizon and others.

RAILS TO TRAILS: Jay Dutton attended the last meeting. They need to have the county review and give suggestions on plans for the trail. At this time the trail has been deeded to committee members. A thorough discussion was held concerning application for grants from the DCNR.
